IDEX Exchange Review. IDEX is an Ethereum-based decentralized exchange that features Ethereum and ERC20 token trading pairs. Like EtherDelta, it employs smart contracts that allow users to manage their private keys and trade in a secure, peer-to-peer environment. It also features Ledger Nano S and Meta Mask Wallet integrations, safer alternatives for fund management than manually entering your private key.

Blockchains ledger technology has the ability to completely upend the media and social media industries. Blockchain is currently being used to disseminate royalty payments for music, movies and streaming services, and as a means to stop the spread of fake news across social media by identifying a single source of truth.
