FX Pro: Is it the broker for you?

NinjaTrader is a US based broker as well as an Algo trading platform. It is a desktop application which means you need to download it on your local computer to access the software. The interface is quite intuitive and offers several advanced charting features that are generally missing in web-based platforms.

To know the schedule of market trading hours is also useful because currencies behave differently according to different trading sessions. For instance, the yen usually wakes up and starts to move actively during the Asian session, while the euro is more active during the European session.
