While there are other ways to purchase crypto, many people acquire crypto on cryptocurrency exchanges. Upon making a purchase, the cryptocurrency you acquired is automatically stored in your exchange-hosted wallet, which is typically custodial, meaning the exchange has control of your private keys. By holding your keys for you, crypto exchanges give you easier access to your funds via a more familiar username and password configuration, which allows you to trade seamlessly on the exchange.

Coinbase Pro: instant deposit not showing in portfolio Just threw \$400 in and it's not showing up at all in my Default Portfolio. Never had a problem with instant deposit/deposits in general/withdrawals before.

Deposit not showing up. I attempted a deposit into my USD account over the weekend because I want to try gdax. My bank says it posted 2 days ago, but it is nowhere to be seen on CB. It's now been the 4 business days which is the max waiting period as stated in the email. Is this normal? usually deposits take 7-8 days from my experience.
