A private key is like a password a string of letters and numbers that allows you to access and manage your crypto funds. When you first buy cryptocurrency, you are issued two keys: a public key, which works like an email address (meaning you can safely share it with others, allowing you to send or receive funds), and a private key, which is typically a string of letters and numbers (and which is not to be shared with anyone).

Fomo Baby is a crypto token backed by the Binance Smart Chain blockchain. It utilizes the rebase mechanism by employing mathematical programming. This mechanism reduces the token circulating supply when its value reduces in the market. As a result, its net value in the users wallets remains constant, despite price fluctuations.
