Crypto arbitrage is a form of trading that involves simultaneously buying and selling cryptocurrencies from different exchanges. Arbitrage traders make profit from crypto price differences between exchanges. This involves buying assets for the lowest price available and selling for the highest. The process of arbitrage trading usually gives relatively small returns on each trade. Also, traders must place their orders extremely fast in order to have advantage among other players.

Some Bitcoin trading sites offer trading in Demo Mode for newbies or a Demo Account, which is pretty much the same. Trading with play money helps you to understand the functionality of the platform and simply get used to using it. If you feel secure because you are familiar with placing orders and the way the system reacts and executes those orders, then you are ready to trade with your real Bitcoin.
