Crypto arbitrage is a form of trading that involves simultaneously buying and selling cryptocurrencies from different exchanges. Arbitrage traders make profit from crypto price differences between exchanges. This involves buying assets for the lowest price available and selling for the highest. The process of arbitrage trading usually gives relatively small returns on each trade. Also, traders must place their orders extremely fast in order to have advantage among other players.

Binance JEX is the part of Binance's exchange empire which focuses on futures trading. General Information on Futures Trading Trading in futures means that you can receive a higher exposure towards a certain cryptos price increase or decrease, without having the assets necessary.
