IMO, kraken is the best exchange. It's the mix of many factors: They don't have as many altcoins as Binance but still many, they offer staking for some coins (although not many and not the best rates), they are a registered company in a country with a solid legal system and with real offices and known people (unfortunately that means you need to do their terrible KYC process), you can buy .

One of the most prominent names in the crypto exchanges industry is Binance . Founded in 2017, the exchange quickly reached the number one spot by trade volumes, registering more than USD 36 billion in trades by the beginning of 2021. Gemini is another big name in the cryptocurrency exchange sphere.
