Candlestick charts are a major part of reading crypto charts. Every candle has a main body in either of the colors. You can also see single lines protruding from above and below the main body, called shadows. The body shows the opening and closing prices, and the shadows depict how high or low these starting and closing prices have risen or fallen.

With candlesticks, you can get clues and insights from the price action as well as the general mood of the market for that asset. As time progresses, multiple candlesticks create larger patterns that crypto traders derive signals from to make vital trading decisions. At first, candlesticks may be a little difficult to understand.

Being able to read a candlestick chart is one of the most valuable skills you can have as a trader. Candlestick patterns are widely used to represent trading prices in the crypto market. Whether you're taking a long-term investing approach or day trading, knowing how to read candlestick charts is essential.

So Shiba released the swap on the first days of July this year. It is their decentralized exchange where you can trade Shiba Inu and other crypto currencies. What's great about the swap is that it is making it way easier for investors to trade. The team has put tons of efforts to facilitate all transactions.

SWAP. Tell your Shiba Inu to fetch new tokens. Swap your tokens for other tokens.
