Coinbase Wallet is a software product that gives you access to a wide spectrum of decentralized innovation - buy and store ERC-20 tokens, participate in airdrops and ICOs, collect rare digital art and other collectibles, browse decentralized apps (DApps), shop at stores that accept cryptocurrency, and send crypto to anyone around the world.

You can do so by tapping on the filter icon on the Trust Wallet app. After you've tapped on the filter icon, you'll see a list of cryptocurrencies that you can enable to disable. However, you might not be able to see the token/crypto that you want to add. If that's the case, you need to manually add the token to Trust Wallet by pasting its address in the search bar.

Coinbase is a regulated cryptocurrency exchange and the market leader with an 11% share of the market. Coinbase offers over 55 different coin offerings and trades over \$300 billion in quarterly volume. Coinbase sees market opportunity through entry of new investors, introduction of new currencies, and consolidation of exchanges.
