Blockchain's ledger technology has the ability to completely upend the media and social media industries. Blockchain is currently being used to disseminate royalty payments for music, movies and streaming services, and as a means to stop the spread of fake news across social media by identifying a single source of truth.

Blockchain-based social media platforms allow users to have complete control over where and how their content can be distributed. The distribution capability gives them the improved capacity to profit from the production of passive income. Not only this, such decentralized platforms reward users for posting on their networks.
