What is fiat? Fiat also called fiat money or fiat currency, which is the legal currency established in the constitution of a country and issued and circulated by the government of that country. For example, the US legal currency is the US dollar, and the Chinese legal currency is the RMB. Since it is a government-issued currency that has no inherent value, the source of the value of fiat currency is that fiat currency owners believe that currency can continue to maintain purchasing power.

Wallet. Hey. I been trying to send some BTC that I got in my wallet to the Coinbase platform, but it doesnt allow me to send it because of the miners fee, saying that I dont have found for the transaction, which is kinda odd since I transferred the same amount to the same account with no problem. I was gonna try converting it to another .
