Sushi coin is linked to SushiSwap, which is a decentralised exchange, or DEX for short. This is like a regular currency exchange, except that it allows people to exchange crypto via a smart contract (a computer program that automatically executes sales and other agreements when the right conditions are met), using the Ethereum blockchain.

IMO, kraken is the best exchange. It's the mix of many factors: They don't have as many altcoins as Binance but still many, they offer staking for some coins (although not many and not the best rates), they are a registered company in a country with a solid legal system and with real offices and known people (unfortunately that means you need to do their terrible KYC process), you can buy .
