The arbitrage strategy is popular because it allows buyers to gain without risking much of their investment in

the process. Arbitrage traders make small gains that add up over time. The profits might seem small at first, but they can compound. You can participate in crypto arbitrage without putting your initial investment at risk. Crypto OTC trading is a way of exchanging cryptocurrencies, between buyers and sellers, usually with large orders that are handled most often by a third party. It can happen between one person and another only (P2P), but usually, this is done via specified platforms to oversee that everything is getting executed correctly.
