Stock chart software allows you to generate different types of charts based on a stocks price movements. You can also add various technical indicators the number and type depend on the quality of the software. And many come with filters. Free stock chart software often lets you generate charts in 1-, 3-, 5-, and 15-minute increments.

Also, the latest code is available via git. Point and figure is a stock charting technique used by technical analysts to predict stock prices. Point and figure charting plots price changes in direction by using a column of X's as the price rises and a column of O's as the price falls.
