The opportunity to become the dominant social network, social media blockchain rather, is so huge that there are many others vying for that crown. The safest strategy of all would be to get a small allocation to a few different social media blockchains so that you've a higher chance of having a position in whichever one or group of networks wins out.

Blockchain Social Media are decentralized networking platforms built using blockchain protocols/platforms that allow the development of applications and smart contracts. To name a few, Ethereum, Steem, Stellar are some of the blockchain protocols that support the development of social media DApps.
