Cryptocurrency Wallet vs Exchange Storage: Who Really Controls Your Crypto? There's one key difference between using a crypto wallet vs exchange account to store and manage your digital assets. When you use a cryptocurrency wallet, you and only you are in complete control over what happens to your Bitcoin. But when you keep your crypto on an exchange account, sometimes referred to as an exchange wallet, you share control of your crypto with the exchange itself.

OKEEx Wallet is a multi-currency storage integrated into the OKEEx App, allowing you to store all your digital assets at one place. Not to be mistaken, the OKEEx Wallet is different from your funding.
