GDAX announced in May 2018 that it was going to rebrand the exchange to Coinbase Pro! Coinbase Pro will have all of the same benefits as GDAX, however, the team has added a few new features to make it even better! The new platform is now live, meaning that if you try to access GDAX, you will be redirected to the new Coinbase Pro website. When I tested it out for the first time, I noticed a few differences.

The founders of Coinbase aimed to launch GDAX as a dedicated platform for seasonal traders and expert

users. The interface of GDAX is not as simple as many other cryptocurrency exchanges out there, however, this has not put users off as it continues to build a stellar reputation.
