Binance must pay these fees to miners to ensure that transactions are processed. Since transaction fees are dynamic, you will be charged according to the current network conditions. The fee amount is based on an estimate of the network transaction fees and can fluctuate without notice due to factors such as network congestion. Please check the most updated fee listed on each withdrawal page.

Opposed to a custodial exchange that requires control of your funds, a non-custodial exchange allows you to trade without handing over your funds to a third-party and the ability to maintain control over your private keys. If you are the only person with access to your private keys, only you can choose what happens with your funds, and this is one of the reasons non-custodial exchanges can be extremely secure to use.

biconomy (bico) has transformed the complexities of blockchain transactions by introducing a non-custodial, gas-efficient relay network and integrating the concept of meta transactions, which allows a user to conduct a transaction on the blockchain with a zero balance account and have any third party pay the transaction costs on the users

Transactions on Binance Smart Chain are processed within seconds (thanks to 5-second block times), while transaction fees are typically in the \$0.01 to \$0.03 range, making it one of the most competitive smart contract networks in the market.
