The goal of copy trading, like regular trading is to open positions on various financial markets including FX, CFDs on Stocks, Commodities, Indices and Cryptocurrencies, and then to close the position, hopefully once the value of the asset has moved higher. Although, much like trading for yourself, here you can also incur losses too.

How Crypto Arbitrage Works. To make different exchanges via this method, you must first pay attention to crypto values on various platforms. When you see that a value is higher on one platform than the other, its time to make your move. In quick succession, you'll buy the lower price crypto, then sell it at the higher price on the other .
