While there are other ways to purchase crypto, many people acquire crypto on cryptocurrency exchanges. Upon making a purchase, the cryptocurrency you acquired is automatically stored in your exchange-hosted wallet, which is typically custodial, meaning the exchange has control of your private keys. By holding your keys for you, crypto exchanges give you easier access to your funds via a more familiar username and password configuration, which allows you to trade seamlessly on the exchange.

It can happen with menus that anti-virus protection program detects one, again this is a precaution that your anti-virus program displays. It is normal because the hacks have to get the codes out of the DLL file again and this is a normal unauthorized operation! Disable your anti-virus program before you download and unpack a hack, so that the .
