With this planned integration comes the listing of the native token, FIO on the exchange. Foundation for Interwallet Operability (FIO) is a protocol that is bridging the gap between wallets and payment processing platforms by providing a decentralised service layer of data, requests and confirmations.

FIO Protocol is a delegated proof of stake blockchain that serves as a usability protocol that sits as a standard between wallets, exchanges, crypto payment processors and any other crypto user application handling workflow, data and confirmations about transactions on other blockchains.
