There is a disconnect between what turbotax wants and what it's partner (coinbase) provides in the CSV. Bannedrock described it very well. The headers are creating an error because they are not what turbotax expects for the columns. This is going to be quite time consuming for quite a lot of people.

TurboTax is taking steps to streamline the crypto community's experience this tax season. We've built a solution that allows you to import transactions from Coinbase to TurboTax, with plenty of help and resources along the way. Before, you were required to manually enter each taxable transaction, which could take hours.

The community history began from the launch of the MQL4.com website which was named after MetaQuotes Language 4, the integrated programming language for developing indicators and trading strategies for the MetaTrader 4 trading platform. In 2010, following the release of the new MetaTrader 5 platform and MetaQuotes Language 5, the community .
