The opportunity to become the dominant social network, social media blockchain rather, is so huge that there are many others vying for that crown. The safest strategy of all would be to get a small allocation to a few different social media blockchains so that you've a higher chance of having a position in whichever one or group of networks wins out.

Blockchains ledger technology has the ability to completely upend the media and social media industries. Blockchain is currently being used to disseminate royalty payments for music, movies and streaming services, and as a means to stop the spread of fake news across social media by identifying a single source of truth.

ECN allows you to trade within the spread, charging a fixed fee for the operation. In this way, ECNs not only save investor costs, but also increase the speed of execution of their orders. Along with low prices, another advantage of ECN is the ability to trade around the clock.
