Appearance: This pattern is made up of two candlesticks. The first one is bullish (green) while the second is red and engulfs the other. In other words, the second candle's body is bigger than the first one. With gaps between closing and opening prices rarely seen in the crypto, this pattern occurs at the top of an uptrend.

The international money markets major responsibility is to handle the currency trading between the countries. This process of trading a countrys currency with another one is also known as forex trading. Unlike share markets, the international money market sees very large funds transfer. The players of the market are not individuals; they are very big financial institutions.

When you research crypto assets, you may run into a special type of price graph called a candlestick chart. So its good to take a little time to learn how these work. Similar to more familiar line and bar graphs, candlesticks show time across the horizontal axis, and price data on the vertical axis.
