Having talked about one of the ways of building a cryptocurrency exchange, lets now focus on what are the main steps involved while building a good cryptocurrency exchange like that of Binance. First things first give utmost importance to the design creation. This basically involves two steps wireframes, where the key features are implemented, and a prototype which is nothing but a detailed visualization of the users interaction with the application that allows preventing .

Non-custodial exchange services look to overcome these shortcomings of cryptocurrency exchanges. Online cryptocurrency exchanges can be categorized into two types: centralized and decentralized.
