Futures Contract: These exchange-traded contracts are standardised and the payment is made at the beginning of the period and settled or rolled over each day until the end of the contract. Speculators use these contracts to try to make money on the changing price of the commodity and typically close them out before maturity.

eToro is a multi-asset platform which offers both investing in stocks and cryptoassets, as well as trading CFDs. CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage. 75% of retail investor accounts lose money when trading CFDs with this provider.
