Introducing the BTBS token. The BitBase ecosystem provides a diverse range of products and services that increase the utility of cryptocurrency. However, before participating in the complete ecosystem, participants must first purchase their BTBS token. The token serves numerous roles within the ecosystem and can be used by holders via the BitBase App. BTBS is also the central location for all BitBase financial activity and will serve as the foundation for BitBases economy.

BitBase aims to tokenize its service. The process of tokenizing an asset and further managing it on an app opens up new opportunities as it faces subsequent challenges to its adoption. The new tokenization method allows the issuer to open up innovative methods and promote widespread adoption of investments in this industry.
