Alpha Finance is a cross-chain DeFi platform which aims to address the underserved markets within the crypto community. In particular, there are two key challenges that Alpha Finance aims to address. The first challenge is the limited availability of products outside the Ethereum blockchain.

GameStop shares are soaring after a Wall Street Journal report that revealed its plans to get into the market for non-fungible tokens (NFTs). GameStop plans to build an NFT marketplace and invest.

GameStop is unlikely to challenge straight-out NFT marketplaces, such as OpenSea, but the play-to-earn sector of the cryptocurrency industry is a perfect fit for the gaming retailer. Investment in blockchain gaming developers has been muted, which could add value in the form of equity stakes.
