Can I transfer my crypto holdings between my SoFi Invest account and an external wallet? No, but there's a reason why. We take security seriously at SoFi Invest and by having a closed system we can better secure your crypto assets. This means that your crypto assets are not held in a wallet and are offered as an investment only.

I plan to sell a decent portion of my crypto this summer prior to this happening. For those of you that also plan to sell, will you transfer your crypto out of BlockFi and sell via Coinbase, Gemini, etc. or sell directly from BlockFi? Personally, I like the features of Coinbase Pro where I can set stop losses.
