ShibaSwap trade volume and market listings CoinMarketCap

So Shiba released the swap on the first days of July this year. It is their decentralized exchange where you can trade Shiba Inu and other crypto currencies. Whats great about the swap is that it is making it way easier for investors to trade. The team has put tons of efforts to facilitate all transactions.

ShibaSwap is a fully functional decentralized exchange with all the functionality of other decentralized exchanges like UniSwap and PancakeSwap. The biggest difference is that all DeFi functions on ShibaSwap are dog-themed and named differently than they would be on a regular exchange.
