The opportunity to become the dominant social network, social media blockchain rather, is so huge that there are many others vying for that crown. The safest strategy of all would be to get a small allocation to a few different social media blockchains so that you've a higher chance of having a position in whichever one or group of networks wins out.

While Facebook, Instagram, Twitter, and YouTube are now synonymous with the word social media, this is probably about to change soon. Blockchain technology is giving birth to a new wave of social.

It should come as no surprise that Coinbase, one of the most popular crypto exchanges in the world, tops this list. Crypto traders have been using Coinbase since 2012, and the crypto exchange has.

Blockchains ledger technology has the ability to completely upend the media and social media industries. Blockchain is currently being used to disseminate royalty payments for music, movies and streaming services, and as a means to stop the spread of fake news across social media by identifying a single source of truth.
