This API lets brokers build a bridge to connect their backend systems to the TradingView interface, so that broker partners then can be supported on the TradingView Web Platform. The integration is very straightforward. The broker builds a REST Web API on its own servers based on our specification so that it can be connected to TradingView. TradingView provides a sandbox and required technical assistance to get your TradingView Web Platform integration started.

53k Wire Transfer to Coinbase Missing. Hey all, I've been trading crypto for about 3 years now on multiple exchanges but have never had the issue I have with Coinbase. After convincing my wife that she should also diversify her investments, we decided to start her off with a 53k investment. We wired the money from her bank to Coinbase and BOOM.

TradingView is not a broker but rather a charting platform showing you the world wide access to market data under the form of charts. I must say it is one of the best and most seamless charting platform I have ever seen. You can also make an account there and customize the chart to apply your method of analysis.
