API stands for Application Programming Interface. As the name already suggests, it is an interface used to link the ProfitBird platform with the exchanges. If you provide your ProfitBird account with the API Key and Secret of your Coinbase Pro account, then the ProfitBird Platform is able to invest and trade on your exchange account on your behalf. So the API Key and Secret act as a unique identifier for authentication.

Huobi Group and its sub-brands distinguish themselves from global peers through world-leading technology platforms, product lines, security risk management system, operations, and customer service. Positioning: Huobi Global is committed to providing professional, secure, and transparent digital asset services for its global user base.

To summarise, cryptocurrency trading basics are relatively simple. Just as every culture has its own favorite drink, they like to consume it in different ways. A good place to start is to purchase Bitcoin first as an investment (at market rates) so that you can buy into other cryptocurrencies later if this field interests you after the first purchase.

Online trading is quick and easy, but online investing takes time. With the click of a mouse, you can buy and sell stocks from one of the many online brokers offering low-cost trades. Although online trading saves investors time and money, it does not take the homework out of making investment decisions. You may be able to make a fast trade, but making wise investment decisions takes time.
