With candlesticks, you can get clues and insights from the price action as well as the general mood of the market for that asset. As time progresses, multiple candlesticks create larger patterns that crypto traders derive signals from to make vital trading decisions. At first, candlesticks may be a little difficult to understand.

Candlestick charts are a major part of reading crypto charts. Every candle has a main body in either of the colors. You can also see single lines protruding from above and below the main body, called shadows. The body shows the opening and closing prices, and the shadows depict how high or low these starting and closing prices have risen or fallen.

Sometimes it's useful to scan entire crypto markets for outliers. That is, simultaneously track every coin on an exchange for a percent change price movement. This can help find coins that are breaking out of trends relative to the market as a whole. Our percent change alert has a special option for this purpose: Any Coin.
