When you research crypto assets, you may run into a special type of price graph called a candlestick chart. So its good to take a little time to learn how these work. Similar to more familiar line and bar graphs, candlesticks show time across the horizontal axis, and price data on the vertical axis.

With candlesticks, you can get clues and insights from the price action as well as the general mood of the market for that asset. As time progresses, multiple candlesticks create larger patterns that crypto traders derive signals from to make vital trading decisions. At first, candlesticks may be a little difficult to understand.
