With candlesticks, you can get clues and insights from the price action as well as the general mood of the market for that asset. As time progresses, multiple candlesticks create larger patterns that crypto traders derive signals from to make vital trading decisions. At first, candlesticks may be a little difficult to understand.

Candlestick charts are a major part of reading crypto charts. Every candle has a main body in either of the colors. You can also see single lines protruding from above and below the main body, called shadows. The body shows the opening and closing prices, and the shadows depict how high or low these starting and closing prices have risen or fallen.
