While there are other ways to purchase crypto, many people acquire crypto on cryptocurrency exchanges. Upon making a purchase, the cryptocurrency you acquired is automatically stored in your exchange-hosted wallet, which is typically custodial, meaning the exchange has control of your private keys. By holding your keys for you, crypto exchanges give you easier access to your funds via a more familiar username and password configuration, which allows you to trade seamlessly on the exchange.

When Coinbase updates its user interface, there may be a glitch or need to update your application or browser. This is a simple fix that could be responsible for no money showing up in your wallet. It may also result in a blank screen when you try to open your account. We recommend keeping your software up to date so that this issue does not occur.
