Today let's analyze the global and local picture on the ICP chart. ICP broke the global trend line. After that, we got a strong impulsive move towards \$38 level, which currently acts as resistance. It is worth highlighting the big volume at the bottom of the chart. This is a good signal.

Metamask does not support the native Terra network, so you would not be able to send native LUNA or UST tokens to your Metamask wallet. However, it is possible to add LUNA and UST tokens to the ERC20 or Binance Smart Chain, so you can send the BEP20 or ERC20 versions of these tokens to your Metamask wallet.

Deposits and withdrawals on Ethereum (ERC20) and Binance Smart Chain (BEP20) will be suspended starting from 2021-06-23 06:55 AM (UTC). Deposits and withdrawals will be reopened after the maintenance is completed. There will be no further announcement.

This is the IQ Option Registration page, where you fill in the form and you are straight away taken to you account in the trading platform. To get your account 100% verified you need to get your account approved. You need to verify you account before you can make a deposit/withdrawal. The first step is to check your email for the email verification. See the video below, here you can see how the verification process is when you use the IQ Option Registration form.

Why i prefer using coingecko over cmc: 1.ERC20 Contract addresses are listed on the coin's page. 2.Im not sure what their criteria for coin 'rankings' are besides market cap, but as an example, coingecko lists polkadot as a top 10 coin by volume, but on cmc it's in the top 2000. 3.AFAIK I haven't seen any 'paid shillings' like the recent band .

My Airswap deposit address in Binance seems to be the same as my EOS deposit address in Binance. Do all ERC20 tokens in Binance share the same address in a Binance account?

Unlike conventional leveraged tokens (not managed by Binance), Binance Leveraged Tokens do not maintain constant leverage. Instead, Binance Leveraged Tokens attempt to maintain a variable target leverage range between 1.25x and 4x. This would maximize profitability on upswings and minimize losses to avoid liquidation.

The eToro club tiers are directly linked to your liquidity on the platform. This means the more you invest and spend time on eToro the better your experience and support from eToro's team will be. What stands out as the biggest difference in the tiers is the human touch added on Platinum+ and Diamond. eToro wants their biggest traders to feel appreciated, enable them, and create a network for them.

Effective July 27th, 2021, Binance Futures set leverage limits for users who registered their futures accounts in less than 60 days. The following leverage limits will apply: From the effective date, new users with registered futures accounts of less than 60 days will not be allowed to open positions with leverage exceeding 20x.
