Trade account management through specialized MetaTrader 5 applications is called Automated Trading or Algorithmic Trading. These applications are referred to as trading robots; they can analyze quotes of financial instruments, as well as execute trade operations on the Forex and exchange markets. Trading robots can perform operations on financial markets and as a result, a trader can be completely replaced.

The Corporate Account Verification process is used for business accounts and not for personal use. Additionally, you will not be able to merge a Corporate account into an already existing Personal account. 1. Log into your account and visit the Settings tab. 2.
