If we can get safemoon listed on robinhood then the price will really sky rocket. It can't cost much to list on robinhood, knowing that doge coin has been on there for awhile now. Thoughts? Edit I fully understand how robinhood works and that it's users don't get wallets or actually own the coin. But that's besides the fact, that if listed on robinhood.then robinhood would have to buy in with hundreds of millions of dollars.and then keep buying more to please their users as they get low.

The crypto currencies sure have the potential to do so. Though the possibility of crypto currencies replacing the fiat ones is solid, it comes with its own issues from the current standpoint.

What is fiat? Fiat also called fiat money or fiat currency, which is the legal currency established in the constitution of a country and issued and circulated by the government of that country. For example, the US legal currency is the US dollar, and the Chinese legal currency is the RMB. Since it is a government-issued currency that has no inherent value, the source of the value of fiat currency is that fiat currency owners believe that currency can continue to maintain purchasing power.
