MY experience with UFX is much the same as most of the reviewers here. 95% of the brokers I was allocated to spent most of their time telling me the only way to make money was to continue to increase the amount in your account. They suggested I mortgaged my house, borrowed from my family or used my credit card.

Here, the code for the automated trading in ThinkOrSwim is quite simple: plot signal = if close >= 195 and close < 200 then 1 else 0; This lets us place the order conditions, and you may link it to something like the ask to avoid overpaying or even the mid-price, and set this as a GTC order. If it gets filled, fantastic.
