Trade account management through specialized MetaTrader 5 applications is called Automated Trading or Algorithmic Trading. These applications are referred to as trading robots; they can analyze quotes of financial instruments, as well as execute trade operations on the Forex and exchange markets. Trading robots can perform operations on financial markets and as a result, a trader can be completely replaced.

Automated trading systems also referred to as mechanical trading systems, algorithmic trading, automated trading or system trading allow traders to establish specific rules for both trade.
