The international money markets major responsibility is to handle the currency trading between the countries. This process of trading a countrys currency with another one is also known as forex trading. Unlike share markets, the international money market sees very large funds transfer. The players of the market are not individuals; they are very big financial institutions.

I use CoinBase Pro to trade cryptocurrency and I want to add it to Mint so I can view my balance with the rest

of my financial accounts. Mint asks that I create an API key via CoinBase. This did not work for CoinBase Pro, but when I did it on Coinbase.com it did work, however it did not show any of my balances from the Pro website.

Heres the breakdown in 4 easy steps: Log in to your Mint.com account. Click on Accounts and then Add Account. Find Coinbase. Add your API Key and click Add It. Your coinbase account will automatically update in Mint just like your other banks accounts, credit cards, and loans. Youll find it under Investments.
