A cold wallet is an offline wallet. It is not connected to the internet and is used for securing storing funds that do not have to be frequently accessed. Examples include hardware wallets - which is a secure hardware device that stores the wallets private keys - and paper wallets. Cardano is supported by both Trezor and Ledger hardware wallets.

Cardano is an open platform that seeks to provide economic identity to the billions who lack it by providing decentralized applications to manage identity, value and governance. It was created by a team led by Charles Hoskinson, in a bid to create a "more balanced and sustainable ecosystem" for cryptocurrencies.

An option you purchase is a contract that gives you certain rights. Depending on the option, you get the right to buy or the right to sell a stock, exchange-traded fund (ETF), or other type of investment for a specific price during a specific period of time. Investors and traders use options for a few different reasons.

Options trading can be a great way to grow your income, limit your risk and hedge against market fluctuations at the same time, says Stephen Callahan, vice president of client services at.
