If your Google Authenticator is working properly, you can change or disable it by following these steps: 1. Log in to your Binance account and click[Profile] - [Security]. 2. Next to [Google Authentication], click [Change] to directly replace your existing Google Authenticator, or click [Remove] to unbind the current Authenticator and bind a new one later.

This API lets brokers build a bridge to connect their backend systems to the TradingView interface, so that broker partners then can be supported on the TradingView Web Platform. The integration is very straightforward. The broker builds a REST Web API on its own servers based on our specification so that it

can be connected to TradingView. TradingView provides a sandbox and required technical assistance to get your TradingView Web Platform integration started.
