Blockchain-based social media platforms allow users to have complete control over where and how their content can be distributed. The distribution capability gives them the improved capacity to profit from the production of passive income. Not only this, such decentralized platforms reward users for posting on their networks.

The opportunity to become the dominant social network, social media blockchain rather, is so huge that there are many others vying for that crown. The safest strategy of all would be to get a small allocation to a few different social media blockchains so that you've a higher chance of having a position in whichever one or group of networks wins out.
