Robinhood app sells user customer data to make a quick buck from the high-frequency trading (HFT) firms on Wall Street, that is what we wrote last month, in one of the first articles that expressed concern over the popular Robinhood investing app for millennials, which has shady ties to HFT firms and undermines its image of an anti-Wall .

Crypto arbitrage is a form of trading that involves simultaneously buying and selling cryptocurrencies from different exchanges. Arbitrage traders make profit from crypto price differences between exchanges. This involves buying assets for the lowest price available and selling for the highest. The process of arbitrage trading usually gives relatively small returns on each trade. Also, traders must place their orders extremely fast in order to have advantage among other players.
