People invest in stocks because those are actual businesses making actual money that they actually give out to their shareholders. And even those are considered incredibly risky investments. Right now in crypto, if you've only been playing the game for a couple of months, you've only known winning.

This API lets brokers build a bridge to connect their backend systems to the TradingView interface, so that broker partners then can be supported on the TradingView Web Platform. The integration is very straightforward. The broker builds a REST Web API on its own servers based on our specification so that it can be connected to TradingView. TradingView provides a sandbox and required technical assistance to get your TradingView Web Platform integration started.
