The Cryptocurrency 101 series will focus on the foundational topics for constructing your first crypto portfolio, getting involved with crypto trading, and learning the quirks of the industry. The following article will touch on tips for selecting the digital assets to place in your portfolio.

To summarise, cryptocurrency trading basics are relatively simple. Just as every culture has its own favorite drink, they like to consume it in different ways. A good place to start is to purchase Bitcoin first as an investment (at market rates) so that you can buy into other cryptocurrencies later if this field interests you after the first purchase.

A decentralized exchange is a cryptocurrency exchange where you can trade cryptocurrencies from your own wallet without trusting third parties. Decentralized exchanges are powered by smart contracts which allow users to trade cryptocurrencies directly with other users or through liquidity pools. Decentralized exchanges are non-custodial exchanges and based on smart contracts, so there is no need to trust a third party with your funds.
