API stands for Application Programming Interface. As the name already suggests, it is an interface used to link the ProfitBird platform with the exchanges. If you provide your ProfitBird account with the API Key and Secret of your Coinbase Pro account, then the ProfitBird Platform is able to invest and trade on your exchange account on your behalf. So the API Key and Secret act as a unique identifier for authentication.

Gemini ActiveTrader is a trading interface that offers advanced charting, additional trading pairs, order types, and deeper order book visibility. Once logged in, this will take you to your Profile Settings page where you can enable the ActiveTrader UI. You will also be able to switch between Gemini User Interfaces. Our ActiveTrader fee schedule can be found here.

Orders placed via our ActiveTrader interface (each, an Order) are subject to the rates on this schedule. Gemini utilizes a maker-taker fee model for determining trading fees for all Orders. Liquidity-making Orders are charged different fees than liquidity-taking Orders. If you place an Order that is filled immediately, this Order takes liquidity from the marketplace and, therefore, you are considered a taker and will be charged a taker fee.

Huobi Global - Huobi - Welcome to Huobi

A private key is like a password a string of letters and numbers that allows you to access and manage your
crypto funds. When you first buy cryptocurrency, you are issued two keys: a public key, which works like an
email address (meaning you can safely share it with others, allowing you to send or receive funds), and a
private key, which is typically a string of letters and numbers (and which is not to be shared with anyone).
